## **1. Aims**

This policy aims to:

- Set out our school's approach to allergy management, including reducing the risk of exposure and the procedures in place in case of allergic reaction
- Make clear how our school supports pupils with allergies to ensure their wellbeing and inclusion
- Promote and maintain allergy awareness among the school community

## **2. Legislation and guidance**

This policy is based on the Department for Education (DfE)'s guidance on allergies in schools and supporting pupils with medical conditions at school, the Department of Health and Social Care's guidance on using emergency adrenaline auto-injectors in schools, and the following legislation:

- The Food Information Regulations 2014
- The Food Information (Amendment) (England) Regulations 2019
- DFE Guidance (June 2026)

## **3. Roles and responsibilities**

We take a whole-school approach to allergy awareness.

### **3.1 Allergy lead**

The nominated allergy lead is Daniel Ramshaw, SENDCo. The Headteacher, David Walton-Jonas, has overall responsibility for all aspect of the school's operations.

They're responsible for:

- Promoting and maintaining allergy awareness across our school community
- Recording and following up on any serious incidents or 'near misses' in line with our school's complaints policy
- Identification:
  - Recording and collating allergy and special dietary information for all relevant pupils – supported by Gayle Robson, Administrator
  - Records will be held centrally and, where required, included in class files alongside SEND Pupil Passports. Staff will be regularly updated in line with the school's staff meeting cycle re. Safeguarding/Health & Safety briefings
  - Information is provided to all of our incoming families via admission packs/SLT presentations. Following this, families are requested to update school if their child's individual circumstances ever change. Reminders are provided in annual 'Welcome Letters'
- Ensuring:
  - All allergy information is up to date and readily available to relevant members of staff
  - All pupils with allergies have an allergy action plan completed by a medical professional

- All staff receive an appropriate level of allergy training
- All staff are aware of the school's policy and procedures regarding allergies
- Relevant staff are aware of what activities need an allergy risk assessment
- Keeping stock of the school's adrenaline auto-injectors (AAIs)
- Regularly reviewing and updating the allergy policy

### **3.2 Medical Professionals**

The appropriate medical professional is responsible for:

- Co-ordinating the paperwork and information from families
- Co-ordinating medication with families
- Checking spare AAIs are in date
- Any other appropriate tasks delegated by the allergy lead

### **3.3 Teaching and support staff\***

All teaching and support staff are responsible for:

- Promoting and maintaining allergy awareness among pupils
- Maintaining awareness of our allergy policy and procedures
- Being able to recognise the signs of severe allergic reactions and anaphylaxis
- Attending appropriate allergy training as required
- Being aware of specific pupils with allergies in their care
- Carefully considering the use of food or other potential allergens in lesson and activity planning
- Ensuring the wellbeing and inclusion of pupils with allergies

*\* This includes permanent staff, temporary staff, supply teachers, peripatetic staff, agency workers and regular volunteers. It includes catering staff and others who may oversee children and young people at breakfast or after school clubs. It is not intended to include contractors carrying out work with no pupil-facing role such as builders, electricians or other ad hoc maintenance personnel.*

### **3.4 Parents/carers**

Parents/carers are responsible for:

- Being aware of our school's allergy policy
- Providing the school with up-to-date details of their child's medical needs, dietary requirements, and any history of allergies, reactions and anaphylaxis
- If required, providing their child with 2 in-date adrenaline auto-injectors and any other medication, including inhalers, antihistamine etc., and making sure these are replaced in a timely manner
- Carefully considering the food they provide to their child as packed lunches and snacks, and trying to limit the number of allergens included
- Following the school's guidance on food brought in to be shared
- Updating the school on any changes to their child's condition

- Sharing details of any serious incidents or 'near misses' – ensuring that the school are fully aware of this and are in the best position to support and reduce any future/further risk

### **3.5 Pupils with allergies**

These pupils are responsible for:

- Being aware of their allergens and the risks they pose
- Understanding how and when to use their adrenaline auto-injector, supported by suitably trained staff member(s).

### **3.6 Pupils without allergies**

These pupils are responsible for:

- Being aware of allergens and the risk they pose to their peers

Where appropriate, pupils might also be expected to support their peers and staff in the case of an emergency.

## **4. Assessing risk**

The school will conduct a risk assessment for any pupil at risk of anaphylaxis taking part in:

- Lessons such as food technology
- Science experiments involving foods
- Crafts using food packaging
- Off-site events and school trips
- Any other activities involving animals or food, such as animal handling experiences or baking
- A risk assessment for any pupil at risk of an allergic reaction will also be carried out where a visitor requires a guide dog.

## **5. Managing risk**

### **5.1 Risk Reduction**

- Pupils are reminded to wash their hands before and after eating
- Sharing of food is not allowed
- Pupils have their own named water bottles provided by the school and contain only water
- Where children and young people have a known allergy to airborne or contact allergens, the school will significantly reduce the risk of exposure by implementing alternative, safe and separate spaces (if appropriate)
- Staff planning any activity should consider the risk of exposure to allergens, for example in craft, science, musical or cooking activities, or where activities involve animals
- Specific risk assessments will be implemented (Appendix 1) to manage the risks of exposure to allergens in individuals with an allergy when planning external visits or trips, for example.

## **5.2 Catering**

The school is committed to providing safe food options to meet the dietary needs of pupils with allergies.

- Catering staff receive appropriate training and are able to identify pupils with allergies
- School menus are available for parents/carers to view with ingredients available
- Where changes are made to school menus, we will make sure these continue to meet any special dietary needs of pupils
- Food allergen information relating to the 'top 14' allergens is displayed on the packaging of all food products, allowing pupils and staff to make safer choices. Allergen information labelling will follow all legal requirements that apply to naming the food and listing ingredients, as outlined by the Food Standards Agency (FSA)
- Catering staff follow hygiene and allergy procedures when preparing food to avoid cross-contamination

## **5.3 Food restrictions**

We acknowledge that it is impractical to enforce an allergen-free school. High-risk foods include:

- Packaged nuts
- Cereal, granola or chocolate bars containing nuts
- Peanut butter or chocolate spreads containing nuts
- Peanut-based sauces, such as satay
- Sesame seeds and foods containing sesame seeds

Where required, if a pupil brings these foods into school, they may be asked to eat them away from others to minimise the risk, or the food may be confiscated.

## **5.4 Insect bites/stings**

When outdoors:

- Shoes should always be worn
- Food and drink should be covered

## **5.5 Animals**

- All pupils will always wash hands after interacting with animals to avoid putting pupils with allergies at risk through later contact
- Pupils with animal allergies will not interact with animals

## **5.6 Support for mental health**

Pupils with allergies may experience bullying and may also suffer from anxiety and depression relating to their allergy. Where these issues may be apparent, the school will revert to the implementation of its Anti-Bullying Policy.

Pupils with allergies will have additional support through:

- Pastoral care
- Regular check-ins

- Healthy Heads/CAMHS referral

## **5.7 Events and school trips**

- For events, including ones that take place outside of the school, and school trips, no pupils with allergies will be excluded from taking part
- The school will plan accordingly for all events and school trips, and arrange for the staff members involved to be aware of pupils' allergies and to have received adequate training
- Appropriate measures will be taken in line with the schools AAI protocols for off-site events and school trips (see section 7.5).

## **6. Procedures for handling an allergic reaction**

### **6.1 Register of pupils with AAIs**

The school maintains a register of pupils who have been prescribed AAIs or where a doctor has provided a written plan recommending AAIs to be used in the event of anaphylaxis. The register includes:

- Known allergens and risk factors for anaphylaxis
- Whether a pupil has been prescribed AAI(s) (and if so, what type and dose)
- Where a pupil has been prescribed an AAI, whether parental consent has been given for use of the spare AAI, which may be different to the personal AAI prescribed for the pupil
- A photograph of each pupil to allow a visual check to be made

The register is kept in our school office and can be checked quickly by any member of staff as part of initiating an emergency response. Any pupil requiring specific support, details will be available in their classroom alongside SEND Pupil Passports.

### **6.2 Allergic reaction procedures**

- As part of the whole-school awareness approach to allergies, all staff are trained in the school's allergic reaction procedure, and to recognise the signs of anaphylaxis and respond appropriately
- Staff are trained in the administration of AAIs to minimise delays in pupil's receiving adrenaline in an emergency
- If a pupil has an allergic reaction, the staff member will initiate the school's emergency response plan, following the pupil's allergy action plan. If an AAI needs to be administered, a member of staff will use the pupil's own AAI, or if it is not available, a school one
- If the pupil has no allergy action plan, staff will follow the school's procedures on responding to allergy and, if needed, the school's normal emergency procedures – parental contact and 999.
- A school AAI device will be used instead of the pupil's own AAI device if:
  - Medical authorisation and written parental consent have been provided, or
  - The pupil's own prescribed AAI(s) are not immediately available (for example, because they are broken, out-of-date, have misfired or been wrongly administered)

- If a pupil needs to be taken to hospital, staff will stay with the pupil until the parent/carer arrives, or accompany the pupil to hospital by ambulance
- If the allergic reaction is mild (e.g. skin rash, itching or sneezing), the pupil will be monitored and the parents/carers informed

## **7. Adrenaline Auto-Injectors (AAIs)**

### **7.1 Purchasing of spare AAIs**

The Headteacher is responsible for the authorisation of the purchase of spare AAIs and ensuring they are stored according to the guidance.

- AAIs will be purchased at a local pharmacy, accompanied by a supporting letter from the Headteacher
- One AAI will be held by the school as a spare and will be administered in accordance with the instructions provided.

### **7.2 Storage (of both spare and prescribed AAIs)**

The allergy lead will make sure all AAIs are:

- Stored at room temperature (in line with manufacturer's guidelines), protected from direct sunlight and extremes of temperature
- Kept in a safe and suitably central location to which all staff have access at all times, but is out of the reach and sight of children
- **Not** locked away, but accessible and available for use at all times
- **Not** located more than 5 minutes away from where they may be needed
- Spare AAIs will be kept separate from any pupil's own prescribed AAI, and clearly labelled to avoid confusion.

### **7.3 Maintenance (of spare AAIs)**

Gayle Robson, Administrator, and David Walton-Jonas, Headteacher, is responsible for checking that:

- The AAIs are present and in date
- Replacement AAIs are obtained when the expiry date is near

### **7.4 Disposal**

AAIs can only be used once. Once a AAI has been used, it will be disposed of in line with the manufacturer's instructions (for example, in a sharps bin for collection by the local council).

### **7.5 Use of AAIs off school premises**

Pupils at risk of anaphylaxis who are able to administer their own AAIs should carry their own AAI with them on school trips and off-site events, if approved within their individual Risk Assessments

### **7.6 Emergency anaphylaxis kit**

The school holds an emergency anaphylaxis kit. This includes:

- X1 Spare AAIs
- Instructions for the use of AAIs

- Instructions on storage
- Manufacturer's information
- A checklist of injectors, identified by batch number and expiry date with monthly checks recorded
- A note of arrangements for replacing injectors
- A list of pupils to whom the AAI can be administered
- A record of when AAIs have been administered

## **8. Training**

The school is committed to training all staff in allergy response. This includes:

- How to reduce and prevent the risk of allergic reactions
- How to spot the signs of allergic reactions (including anaphylaxis)
- The importance of acting quickly in the case of anaphylaxis
- Where AAIs are kept on the school site, and how to access them
- How to administer AAIs
- The wellbeing and inclusion implications of allergies

Training will be carried out annually using the materials provided by Together for Children - <https://allergytraining.food.gov.uk/>

## Appendix 1 – Health Care Plan Templates (DFE)

| NAME – Individual Healthcare Plan for allergy                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |               |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------|
| <b>Date of birth:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  | Current photo |
| <b>Year / class:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |               |
| <b>Emergency contacts:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |               |
| <b>Staff who need to be aware:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |               |
| <b>Allergy:</b><br><i>Note what allergy the child or young person has.</i><br><i>Note any known allergens.</i><br><i>Note whether the child or young person is likely to be aware that they are having an allergic reaction and whether they can alert others.</i>                                                                                                                                                                                                                                                     |               |
| <b>How the allergy is managed:</b><br><i>Note any care or action plans or prescribed medication issued by healthcare professionals.</i><br><i>If the allergy can be partly or wholly managed by practical adjustments (for example avoidance of known allergens), note them here.</i><br><i>Note the extent to which the child or young person is able to take responsibility for managing their allergy.</i>                                                                                                          |               |
| <b>Impact on education:</b><br><i>Indicate the potential harm which might come to the child or young person if their allergy is not managed properly.</i><br><i>Indicate how the allergy may impact on the child or young person's learning.</i><br><i>Indicate how the allergy may impact on the child or young person's emotional wellbeing.</i><br><i>If relevant, note any interaction between allergy and SEN.</i>                                                                                                |               |
| <b>Arrangements for support:</b><br><i>Give details of the specific support or adaptations which the school, college or early years setting will put in place, within its educational remit.</i><br><i>Outline measures to reduce the risk of contact with known allergens.</i><br><i>Give details of the specific support or adaptations to manage food allergy at meal and snack times.</i><br><i>Note arrangements for maintaining educational progress where absence or missed learning occurs due to allergy.</i> |               |
| <b>Visits and trips:</b><br><i>Give details of any arrangements or procedures which may be required for school trips or other activities outside of the normal timetable that will ensure the child can participate.</i><br><i>Note any requirement for a risk assessment and prompts for specific issues which should be considered.</i>                                                                                                                                                                              |               |
| <b>Emergency response:</b><br><i>Where an Action Plan issued by a healthcare professional covers emergency response, refer to it and ensure it is attached.</i><br><i>Otherwise summarise the signs or symptoms which would indicate an emergency.</i><br><i>Set out what to do in an emergency, including whom to contact.</i><br><i>If relevant, note where "spare" adrenaline devices are located.</i>                                                                                                              |               |
| <b>Last discussed with parents:</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    | <b>Date</b>   |
