

NC Purpose of Study

Religion and beliefs inform our values and are reflected in what we say and how we behave. RE is an important subject in itself, developing an individual's knowledge and understanding of the religions and beliefs which form part of contemporary society. Religious education provokes challenging questions about the ultimate meaning and purpose of life, beliefs about God, the self and the nature of reality, issues of right and wrong, and what it means to be human. It can develop pupils' knowledge and understanding of Christianity, of other principal religions, other religious traditions and worldviews that offer answers to questions such as these. RE offers pupils the opportunity to examine the significance of religion in relation to themselves and others, as they consider how religion and beliefs have an impact on individuals and groups in local, national and global contexts. It offers opportunities for personal reflection and spiritual development and it encourages pupils to explore their own beliefs (whether they are religious or not) in the light of what they learn. RE encourages empathy and enables pupils to develop their own sense of identity and belonging. RE encourages respect for all, including those with differing faiths and beliefs, as pupils develop understanding and appreciation of our diverse society and world. RE helps to challenge prejudice, discrimination and racism.

Intent	Implementation	Impact
At Broadway Junior School, Religious Education enables our children to develop their own understanding of the world around them. It helps our children to acquire and build upon knowledge, understanding, skills and attitudes needed to handle questions raised by religion, beliefs and worldviews. Our curriculum allows children to explore and reflect on their own personal views and ways of living. We strive to open up the world to our children by preparing them for life in the wider world, after Broadway. We aim to equip children with the knowledge, understanding and skills to enable them to participate positively in our diverse society and we intend for them to develop and articulate their own ideas, values and identities. Our children's personal development is at the forefront of what we do. Our RE curriculum contributes to children's spiritual, moral, social and cultural development, as well as allowing them to understand important fundamental British values.	Religious Education is an important part of the broad and balanced curriculum that we deliver to our children. We provide them with many opportunities to explore what people believe and how that impacts the way that they live through an ambitious systematic programme of study. We implement a creative curriculum that is progressive throughout the whole school. Through following our half termly overview and schemes of work, each year group plans and delivers a clear, systematic unit of work, based around outlined objectives. We bring our Religious Education to life by offering learning outside the classroom. Children experience a variety of enrichment opportunities such as: assemblies, guest speakers, themed days and educational visits. We also maximise learning opportunities in our local area through visiting places of worship.	Through learning about different religious and non-religious beliefs, we ensure that children at Broadway Junior School are able to build upon skills and knowledge that will enable them to be ready for the curriculum at Key Stage 3, and for life as an adult in the wider world. We aim for our children to: <ul style="list-style-type: none"> Understand the concepts, skills and processes of different religions, beliefs and worldviews. Understand the impact and significance of religious and non-religious beliefs. Be able to make connections between various religions, worldviews and their own beliefs. Be tolerant and respectful of those who have different religions and beliefs to that of themselves. Become critical thinkers and handle questions raised by religion and belief effectively. Reflect on their own beliefs, ideas and ways of living. Develop and articulate their own ideas, values and identities. Participate positively in society.

Knowledge	Skills
<p>Pupils will know that:</p> <ul style="list-style-type: none"> Christians learn about God from the Bible. The Bible teaches that God is the Creator who made the world and everything in it. It also shows that God is loving and kind, holy which means perfect and special, and forgiving when people make mistakes. Christians believe there is one God, but He is known in three ways as the Father, the Son (Jesus), and the Holy Spirit. This is called the Trinity. They believe that God loves everyone, listens to prayers, and shows what He is like through the life and teachings of Jesus. Christians worship God in different places such as in church or at home, and they worship in different ways including praying, singing, and reading the Bible. These beliefs can make a difference in how Christians live today. Many try to be kind and fair, forgive others, and help people who are in need People who are not Christians may still agree that it is important to be kind and helpful, even if they have different beliefs about God. 	<p>Pupils will be able to:</p> <ul style="list-style-type: none"> Retell key Bible stories that describe God Identify and explain key words used for God (e.g. loving, holy) Ask questions about what these descriptions mean Describe Christian beliefs about God using key vocabulary Explain the idea of the Trinity in simple terms Compare Christian beliefs with their own or others' views Make links between beliefs (holy, loving) and actions Give examples of how Christians show their beliefs Reflect on how beliefs influence behaviour Describe different ways Christians worship Explain why worship is important to believers Compare different expressions of worship
